

HOBART **BIM**

Hobart BIM is a community led forum to foster the use of Building Information Modeling and Computational Design within the built environment industry.

6:00PM, WEDNESDAY 4TH SEPTEMBER 2019

HOBART EVENT

**UTAS Art School - Dechaineux Theatre
41 Hunter Street, Hobart**

Our desire for HobartBIM is to provide a free bi-monthly gathering for like-minded and curious individuals to discuss their successes, desires and learnings on a range of topics including but not limited to; building information modelling, computational design, digital fabrication, virtual & augmented reality, reality capture and facility management.

Our aim is to welcome users of all professions, experience and technology platforms whilst remaining vendor neutral.

We will kick off our second event at 6pm on the 4th of September at UTAS Art School Dechaineux Theatre . This month we will be hearing from Jeremy Holloway (LIMINAL ARCHITECTURE), Marko Frangiosthakis (Gandy & Roberts), Beck Lauer (Brickworks), Colin Barratt (All Brick Tasmania) and Mark Dawson (Hansen Yucken). Followed by drinks and nibbles.

LAUNCESTON LIVE STREAM

**UTAS Architecture and Design - The Rory Spence
Lecture Theatre
8 Invermay Road, Launceston**

This month we will also be hosting a Live Stream of the Hobart event for those in Launceston not able to attend our Hobart event in person. This has been kindly organised by UTAS.

Please ensure you book your Free Ticket for either the Hobart Event or Launceston Live Stream.
